 - ◇ Easy Install

MADE IN THE USA

Define your home or your outdoor living area with the mantel you have always wanted without the worry.

Mantelx mantels are less weight than your normal wood mantel. Our mantels can be placed indoor or outdoor to define your living space with a mantel that can withstand the fluctuating temperatures from arctic cold to the heat of the equator.

Mantelx mantels are non-combustible mantels that can be placed at any height. Now you can lower your mantel to give you the room for that extra large tv or painting that would never fit before. Rest easy there will be no over heating.

Mantelx mantels gives your mantel the look of the real wood mantel without cutting down the trees. Our mantel designs closely resemble antiqued wood that has been hand hewn. Our finely crafted pieces are molded from actual mantels from prestigious historical landmarks and give the look of olde world craftsmanship at a fraction of the cost.

MADE IN THE USA

At Mantelx we believe in hard work and traditional American values. A veteran friendly company, we are always looking for the opportunity to employ or help service men and women. We support our troops and thank them for their service whether active duty, reserve, veteran, or retired, etc. .

Washable—Just Wash that Dust OFF!

If using your dust cloth on a dusty piece of wood you must be prepared for splinters and crevices to catch on the cloth. With Mantelx cleaning is made so simple! Just by using a wet cloth, your mantel will be looking like new in a matter of seconds.

No cleaner, chemicals or polishes needed!

Made in the USA

Mantelx mantels are DIY friendly! Mantelx mantels can be installed in under 10 minutes.

- All hardware is provided, Requires only 2 people for installation, printable PDF's available for reference and can be installed on masonry or wood framed walls.
